

# Our *tail* is a happy one, ..... and we want you to be a part of it .

In 2010, we partnered with private practice veterinarians to provide around-the-clock emergency care and referral services for critical cases in the Jackson area. Over the past five years, we have expanded our services to meet the needs of our clients and now it is time to get some more wagging room.

## We would like to bring you:

.....

**1** Larger procedure rooms for special noninvasive imaging techniques for diagnosing and getting our patients treatment even faster.

**2** More office and treatment room space to add more specialists. The pets of the Jackson area will have more specialty services closer to home.

**3** More kennel space to provide our patients with extra comfort and care as our caseload increases.

**4** Dormitory spaces for the Mississippi State University College of Veterinary Medicine students who spend time here on rotations. These students provide the extra sets of eyes and hands in caring for your pets.

**5** Special areas for clients and their pets to get quiet time when consulting with the veterinarians on diagnostics and treatment.

If you are here, you are already a part of our family. If you'd like to be a part of our progress, please contact:
